

Friends of Birch Island Woods

Champion of Open Space

McKnight Foundation

Embrace Open Space Campaign - 2003

Membership Form

Friends of Birch Island Woods are volunteers from Eden Prairie, Minnetonka and elsewhere who successfully campaigned to save a 32-acre, pristine swath of forest and wetlands from development. Most of the woods is now protected as a City of Eden Prairie conservation area. Friends of Birch Island Woods promotes and helps steward the special cluster of environmental, scenic, recreational, historic and human service resources in the Birch Island-Glen Lake area including the Picha Heritage Farm, Eden Wood Center and the Southwest Regional Trail.

Throughout the year, FBIW runs seasonally-themed hike and bike tours, buckthorn pulls and workshops and littler pick-ups. Our spring plant sale at the Picha Heritage Farm draws people from throughout the metro area.
